

Compact Rapid Rootainers™

Compact Rapid Rootainers™

- A compact version of Rootainers with 20 reusable cells, 8cm deep with solid tray and propagating lid
- Perfect for windowsills
- Produces a faster formation of straight roots without root balls
- Especially brilliant for bedding plants, salads and herbs

BBC Gardener's World
 "Sow seed singly into Rootainers. These deep, grooved modules have the added benefit of encouraging roots to grow downwards"
 March 2011

Birmingham Post
 "Rootainers are robust and will last for many seasons. Particularly good for sweet peas where a long, vigorous root system is the key to armfuls of long-stemmed, fragrant blooms for much of the summer"
 March 2011
