

Treeguards – Birdscare – Maypoles

Fleximesh™ Treeguard

- A tough U.V. stabilised polypropylene mesh to protect young plants from animals and garden machinery
- Quickly and easily fitted with the adjustable stake ties included
- Allows air circulation around the plant encouraging healthy growth

Easywrap™ Treeguard

- Manufactured from U.V. stabilised polypropylene, protects from harsh weather, herbicide sprays, animals and garden machinery
- Twin walled tubular design expands with plant growth
- Creates a mini-greenhouse effect accelerating healthy new growth

Birdscare

- Manufactured from polypropylene tape which flickers in the light and emits a penetrating vibration when stretched between stakes
- Deters birds, rabbits and other pests
- Chemical free plant protection for vegetables, fruit and newly sown lawns

Garden Maypole Plant Support

- Versatile and elegant plant support, 1.9m tall
- Ideal for climbing annuals and perennial flowers such as sweet peas and clematis
- Centre pole and decorative finial made from black powder coated steel
- 8 rot-proof polypropylene strings and 8 galvanised steel anchor pegs
- Captures trends in decorative vegetable gardening. Ideal for runner beans
- Quick and easy to erect
